## Step 4 of 7:

There are still several fields that you will have to provide information. Any that have a red \* are required fields.

- County that the address where you are digging is located.
- Township that the digsite address is in. If you don't know your township, refer to your tax records or you can go to this link our website to possibly obtain that information <http://indiana811.org/townshiplocator> based on your zip code.
- Type in the address where the digging will take place.
- The nearest intersection/cross street is not mandatory, but it is helpful in making sure your address is found at the correct location. In the example below, Sierra Drive (which runs East and West) intersects with N Emerson Avenue (which runs North and South).
- If you provide an intersecting/cross street, then you will have to indicate (Yes or No) if that street is within a ¼ of a mile of the address.
- Indicate the city/town that the digsite address is closest too and whether it is in that city/town (Yes or No).
- Indicate what part of the property you want located. At least one choice must be made, and multiple choices are allowed too (e.g. Front of Lot and Rear of Lot, etc.)
- After you have filled in all of the fields, then click on "Next" to continue.

Note: If there is an "apartment number, suite number, etc." associated with the address, please put that information in the Address Field. For example the address is 1040 Sierra Dr, Apt C, you would type 1040 Apt C in Address Field; 1040 Sierra Dr, Suite A, you would type 1040 Suite A. You could also type 1040 – A, 1040 – 1A, etc. Do not place that info in the Street Field as it will affect the softwares ability to locate the street name.

\* Address: 1040 Apt C Dir Prefix: < All > \* Street: Sierra Type: Dr Dir Suffix: < All >

**Step 4 of 7: Digsite Information**
